(54) Title: RESOURCE SHARING BROADBAND ACCESS SYSTEM, METHODS, AND DEVICES

(57) Abstract: Methods, systems and devices for sharing communication resources among a plurality of clients (200-204) that are part of a common wireless community (1000). The communication resources are, for example, Internet access resources (101-104). Another example, might be a video or data delivery communication resource. As an example, clients have separate Internet access accounts. Embodiments of the invention, for example, allow client business units or residential units to share separate Internet access accounts.

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
